

GHANA-CHINA HEALTH SOLUTION

Enabling Better Healthcare Delivery Through Partnerships

GCB Bank connects Ghanaian health facilities with trusted international medical partners, modern healthcare infrastructure, and structured financial solutions to strengthen healthcare delivery. Through our SOEs & Afro-Asia Banking Unit, we support hospitals and health institutions that want to improve services through technology, training, and international collaboration.

Our Solution at a Glance

We support health facilities with integrated solutions that improve service delivery:

- Access to modern medical equipment and hospital infrastructure
- Support for hospital upgrades, specialist units, and turnkey facility projects
- Training and exchange programs for doctors, nurses, technicians, and administrators
- Access to specialist expertise and referral support for complex cases
- Digital tools for hospital planning and management
- Structured financial and payment solutions for equipment and infrastructure investments

Our Approach

GCB acts as the coordinator and enabler, bringing together:

- Ghanaian health facilities
- International medical partners (Dedicated Chinese hospital)
- Equipment suppliers and technical experts through partnership with a Dedicated Chinese Partner
- Structured financing solutions

This ensures hospitals focus on delivering better patient care while GCB supports the operational and financial framework by linking them to a trusted international partner.

Our Promise

One Coordinated Healthcare Solution

We connect health facilities to trusted clinical partners to help strengthen healthcare systems and deliver better outcomes for patients.
